7.2 Best Practices

7.2.1 Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

Response:

Best Practice-I

Community betterment through awareness and social involvement.

1- Objective:

1. Institutional accountability towards society.
2. To make community more aware of important relevant issue.
3. To develop sense of togetherness for solving problematic situation.
4. To increase deeper responsibility & social accountability.
5. To enable community members to take part in solving relevant issue.
6. To mobilizes & encourage attitude of people to participate in collective work for betterment of community.

2- The Context :

Our college is not only concern about holistic development and betterment of all students but also realizes deeper responsibility and accountability towards community. For this our institute organize different awareness programs with an aim to draw attention to various issues like water conservation, environment pollution, awareness for voting, road traffics safety and fire safety.

Most of our students are from rural areas we acquaintance many problems faced by the community through our students. We together encourage and motivate community for participating and solving various issues from time to time. Home science department organize nutrition program were be inform poor and uneducated villagers about the importance of through The concept of "Tiranga Bhojan" with the help of our national flag to make people understand how different colors of food determine their children's health and keep them secure from diseases.

An educative awareness program for children on good touch and bad touch is organized by our students. Apart from this some of our students teaches under privileged students without any fees. Voter awareness program is also organized by our students through street shows.

3-The Practice:

Different media and social platforms specified the measure to prevent Corona but people were not following that norms. So a group of students of our college have started creating awareness about the importance of wearing mask when they step out of their home with proper washing of hands, social distancing and other safety measures. For this they made posters and wrote slogan on walls & distribute pamphlets in each and every wards of Bhatapara. They taught people how to make Ayushman kadha with

the help of tulsi & handmade sanitizers by using domestic articles. They made mask and sanitizers and distributed it to local people, vegetable vendors hawkers etc. Our students received encouraging response from cloth market. As some store keepers appreciate their efforts and donated cloth for making more masks. Our students also helped peoples to maintain protocol during lockdown and supplied food to needy people. They also made circle with the help of paint in front of rashan shop to maintain social distancing. A public awareness campaign "Roko Au Toko" (stops & educate) was taken by the students to promote hygiene, appropriate behavior & vaccination was launched by C.G. govt. in which our volunteers supports the govt. efforts by actively participation.

4- Evidence of Success :

1- The governor of Chhattisgarh state appreciated & motivated the creating efforts & social accountability made by our institution in social platform.

2- Two days salaries are voluntarily deposited by each staff member in chief minister relief fund for victim of Corona.

3- Our efforts made realized & enabled to people to take post in our program & express their social accountability.

4- The shopkeeper of cloth market gave clothes for making mask.

5- The people know how to make kadha & sanitizer by using domestic article.

6- The police of Bhatapara were appreciated the bold gesture that our students made during these challenging time.

5- Problem encountered:

No major problem faced during this practice

Best Practice-II

Gift of literacy, donate books to library.

1- Objective :-

1. To Spread the spirit of reading.
2. To give opportunity to underprivileged students for continuing study.
3. To motivate student for donating used text & references books.
4. To book up the academic performance of poor students.

2-The context: -

Books plays a important & significant role in everyone's life, specially in a student's life. Books not only inspect the aspect with clarity but also helps to improve the academic performance of students. Most of

students admitted in our college as economically downtrodden & poor. They can not afford fees as well as books. Although our college library in very rich & have sufficient number of books for each and every students but they have some rules for issuing books & for a fixed time period. Books of all subjects are not issued for any students at a time. So our college staff have taken positive steps for poor students. Not only text & references books are donated for these under privilege students but the fees have also paid by teaching staff. Knowledge shared is after all knowledge squared & books are the means to do effectively. Senior students & ex -student are also encouraged & motivated to donate their used text & references books for juniors.

3-The Practice :-

Our college is continuously working on upliftment & welfare of poor & rural background students. Earlier due to financial problem students dropout from their studies but recently, availability of books & financial support help & encourage them for continuing their higher education. The teachers convinced pass out students to donate their used books for junior it has positive impact on them. With the combined efforts of staff & students, the institution has achieved innovative solution of dropout rate.

The students who completed their education from donated books also donate their books in this book donation campaign.

Problem encountered Resources required –

There is no major problem encountered during implementationof our best practices.

4-Evidence of success:

1. Commerce department has established a personal library in which their personal books & specimen copies are kept & issued to poor student. The record is maintained in a register.
2. The institution has achieved a innovative solution of dropout rate of students, it has decrease in the dropout rate.
3. The students who completed their education from donated books also donate their books in this book donation campaign.

5- Problem encountered:

No major problem faced during this practice
